17th August - Prayer Assembly

Week 5 - WELLBEING WEEK

21st and 24th August - Pupil Free Days

Week 6 - BOOKWEEK

27th August - Book Week Parade

4th September - Father's Day Breakfast

Week 8 - Three Way Conferences

18th September - Grandparent's Day

23rd September - House Day

Term 3 - Weeks 1 - 5

RELIGIOUS EDUCATION - Prayer/Eucharist and Penance are the units of work for Term Three. Please see the parent letters attached to this School Stream post.

ENGLISH - In Writing, we will be exploring different forms of poetry and learning the structure and features of discussion texts. In Reading, we are focusing on applying comprehension strategies and also reading a range of discussion texts. We will continue with the Sounds Write program in Spelling.

MATHEMATICS - In Mathematics, we are learning about the four operations with decimals, using misleading data and bias in graphing, creating and sticking to budgets, finding percentages, reading timetables, discovering the properties of 3D shapes and measuring large objects. Students will learn new problem-solving strategies then learn to apply their knowledge to different problems.

HASS - Students will develop their geographical understanding through studying the different countries of Asia. They will look at the factors that shape the diverse characteristics of the land and how people, places and environments are interconnected, including a study of the Asia's cultural, economic, demographic and social diversity and how it compares to Australia.

DESIGN TECHNOLOGIES - Students will follow a design process to create their own product, or innovate an existing one then pitch their product to class. Students will also design and build a meaningful sacred space in Minecraft.

HEALTH - We are continuing with our Friendology program. We encourage you to create a parent membership to learn alongside your child. <https://urstrong.com/parents/>

Year Six Learning Overview

Reminders

Please continue to guide your child to complete their home learning.

This term Home Learning will involve:

Mental Maths

Mathletics (optional)

Book Reports

The details of what is due each week is written in the school diary weekly.

Please sign the diary once a week.

Multiplication facts (10x10) should be recalled accurately (within three seconds) upon leaving Year 5. Quiz your child. Use Mathletics Live Games to assist with this acquisition of knowledge. We have identified many students who don't know their tables and/or taking far too long or are using inefficient strategies to recall them.

Please check the status of your child's stationery, headphones, art shirt and homework bag. We are noticing that many students are without items from the booklist.

Sport uniform

6B - Thursday and Friday

6G - Wednesday and Friday

6W - Tuesday and Thursday

Keeping Safe

Keeping Safe: Child Protection Curriculum (KS:CPC)

The KS:CPC is a mandated, age appropriate, curriculum that teaches children to recognise abuse, tell a trusted adult, learn strategies for keeping themselves safe and understand what appropriate and inappropriate behaviour is. This term we are learning about safe and unsafe touching and the different types of abuse.

Specialists

MUSIC - This term in Music, students will explore the 2026 Book Week theme 'A Symphony of Stories' using books as the inspiration for singing, playing instruments, listening, moving, creating and responding to music. During the second half of the term, classes will begin preparing for our Musica Viva incursion 'Music Around the World' which will take place early in Term 4.

PE - This term, in Physical Education, students will further develop their fundamental movement skills through Volleyball by refining techniques, applying tactical strategies and demonstrating effective teamwork. Students will strengthen their leadership, decision-making and sportsmanship while participating in modified games and competitive situations. Later this term, students will prepare for the Athletics Carnival.

VISUAL ART - Students in Year 6 Art this term will be finishing off their Australian Bird pieces of art that we started last term, based on the work of Debbie Dunn. Students will continue refining their drawing, painting and colour mixing skills as they complete these artworks. Students will then design their own dragon's eyes before transforming these designs into clay sculptures. Students will explore a range of sculpting techniques to create texture and detail. To complete their artworks, students will highlight the detail in their sculptures using both matte and metallic paint.

SCIENCE - This term, your child will tackle some of the environmental challenges facing our planet! In our Biological Science unit, we will become environmental scientists as we investigate how changes in the environment and human activities influence the growth and survival of living things. By exploring the impact of natural events and human actions on ecosystems, we will consider how our choices can help create a more sustainable future.
